We offer a complete range of surveillance cameras that include indoor security cameras, infrared surveillance day/night cameras, and vandal proof security cameras designed to withstand abuse.

IT-Care provides IP Network Camera. IP Network camera can be defined as a camera with networking and video processing combined into one unit. A network camera has own IP Address and the computing functions necessary to handle network communications. It captures and transmits live images over the network, enabling remote viewing and user control from anywhere, anytime.

ATTENDANCE & ACCESS CONTROL SYSTEM

IT-Care Time & Attendance management solutions are built on well proven Client/ Server or Web based technology integrated with Biometric & Smart card readers which help you managing attendance of all employees who are spread across various location, branches & departments.

IT-Care IP linked access control system offer the simplest solution to restrict access to certain building, or area within the buildings. Our devices such as finger print, palm, iris & face readers integrated with smart card readers bring you the highest level of security & accuracy.

BIOMETRIC & SMART CARD SOLUTIONS

IT-Care provides customized solution in Biometric & Smart Card technology. We can provide solution like Ration Card / Driving License /Club Management / Library Management/Inventory Management/ Club Management etc. & other govt. projects.
